About This Game

Coffee Shop Tycoon is a management game in which you take control of your own coffee shop. Will you thrive and become a popular coffee shop or die trying? Everything lies in your hands.

The game is NOT another 'click and wait three hours for your employees to cook' kind of game you will have to take choices constantly that will bring more costumers or make you lose money. We are building a game in which customization and planning is as important as having fun.

Coffee Shop Tycoon features:

- Brew your coffee
- Create your own drinks
- Hiring and Training Staff
- Marketing Campaigns
- Seasons and Trends
- Several coffee shops with different styles

-
- Build reputation with Gourmet beverages and special coffee beans
 - Choose your coffee shop logo and color
 - Buy furniture and decoration for your coffee shop
 - Add services to your coffee shop (Wifi, Rewards, and more)
 - Special Events
 - Resupply food and drinks
 - Manage your franchise from you Headquarters.

Please release the soundtrack. U GOTTA DO IT DEGICA. Deciphering a mysterious book is the centre of this well-written story. Though contains the usual medieval-fantasy adventure tropes, the plot is very well paced and developed for each chapter without being dull. The side-characters are also interesting, even the ones having minor roles. For the price we pay, it is a very well worth adventure. Almost every decision have note-worthy effect. Only flaw is multiple numbers of stats that come into account for decision making, sometimes the phrasing kind of confuses me which stats come into account for the choice. If we can grasp that, the game becomes very enjoyable.

9.5V10. Pretty fun, but gets boring after a while. You can still get couple of hours of good time in it!. Surprisingly fun top-down shoot-em-up. Pretty short. I recommend playing if you already own it. I don't remember where I got my copy - it may have been part of a bundle deal or something. It's very satisfying to mow down hordes of zombies in this game.. Pros:

The Lotus 3-Eleven makes your eyes come out the back of your head

The McLaren P1 GTR has a warp drive on the throttle and has blue stuff coming out the exhaust

The Maserati MC12 GT1s brakes Glow bright red

The Audi R8 LMS 2016 sticks like glue and sounds mean

Numerous other pros that I cant find the right words for.

Cons:

for me there are no cons, just need to learn how to drive the cars better

. Lots of fun, great addition to the Atelier series. If you've already played an Atelier game and liked it, there's really nothing more you need to know: Yes, you'll like this one. If you're new to the series, it's a JRPG series focused less on INTENSE DRAMA BLOOD RAGE SEX GRRR and more on people fulfilling their dreams, using alchemy which in these games is basically god-tier creation magic! It's got your JRPG core battle elements, but the focus is on gathering ingredients, making explosives, blowing everything to♥♥♥♥♥and getting even better materials and making even better explosives until eventually you force even the gods to kneel before your... strangely peaceful and timid demigod teenage girl protagonist. Seriously, if there's one thing that makes me giggle every time about Atelier games it's that in the end-game you acquire so much power, blowing dragons away willy nilly for materials, and the world just... carries on. Since they release in very-loosely-related trilogies you actually meet the old protagonists as they continue their adventures, and just... that moment of "ohhhh♥♥♥♥♥I know what I did in that game I know what they can do" is really magical.. Don't buy this game.It's really♥♥♥♥♥Look like my poop.

. i love the concept of this game, but i'd like the gameplay alot more if i could actually move around with the controller.

Did you ever play HeroesQuest the boardgame when you were a kid?
Well this is it... So much love, so much nostalgia i cant handle it.

Im hoalding all my fingers and toes for som awesome updates, like more classes and maybe workshop?? ^.o
and ofc more dungeons!

:D

. Very cool concept
Game is relatively short and feels like the developer can keep building on the story or what happens next.
Mix of FPS gameplay versus puzzle-solving
Some f this reminded me of the movie Oblivion. Very similar look and feel and concepts of drones.

Well made game that provided enough challenge and doesnt hold your hand while motivating you to figure out how to solve the problem the player faces.

8/10. Wouldn't recommend it. Binding of Isaac used to be one of my favorite games but now you have to pay 10 euros for something that is very likely to make your game crash, I mean I paid the thing and now if I let installed my game just crashes upon opening. I'm very disappointed in Nicalis right now, it has been released for two years now and no patches to fix this ? That's just sad.. 5/5 game for bronys and weaboos. Well, it is a fantastic way to spend a few hours. The game offers lots of fun opportunities to tweak, alter and design strategies. With a plethora of different skills, classes and devices to pilot. I enjoyed my first playthrough, and look forward to doing it all again!

I bought it during the sale, and I definitely feel I got my money's worth.

9/10.

The asthetics are charming, the pace is suitably frantic and the gameplay flows nicely. All in all, quite fun.

I only wish that there were an option to make the players bullets slightly less visible, as the screen can be really difficult to navigate or orient yourself in at times. Additionally, a glossary for terms would be nice, I was understanding the effects the classes offered me for the first few tiers, then I became a little confused.. Chicken Invaders <3

THX InterAction studios. My wife is a major Tim Burton fan, so I bought this mainly for her benefit--too bad it's awful. This game is good conceptually, but that's it. Even with the recent patch, the actual fighting is arguably the worst I've ever experienced in a fighting game... and I played Fighting Masters. :(The game encourages running into your opponent like an idiot and button mashing, so there is no feeling of accomplishment whatsoever upon victory. This game needs a serious overhaul to be worth even a couple modest dollars.. shotgun machine broke. Really nice so far.

I have watched half already and it is not just about the game, there are a lot about sword fighting.

. A interesting little game I guess, not too much to say about it as I got it with a bunch of other games for cheap. The blocks constantly move around, some are trapped and others give out gems or coins, though I've yet to find out what to use them for besides scores.

I'd only recommend this if you just want a simple game with no complex story or gameplay, just something to pass the time.
